WORKSHOP

Modular and Scalable EV Power Converter Design

*Unlocking a future of reliable,
lightweight, and affordable EVs?*

19 JULY 2023

15:00 - 18:00

Univeristy of Modena Reggio Emilia

Explore, through the SCAPE project, the benefits of modular and scalable power converter design. Discover the state-of-the-art of chip-embedding. Join our knowledge-brokering discussing the impacts of this power converter design revolution on the semiconductor industry and next gen EV market trends.

[Register here](#)

The workshop is organised in the framework of the **EU-funded Horizon Europe SCAPE project** as part of the **AEIT Automotive 2023 Conference**.
